

Renewable Energy

With this certificate, SEAS-NVE Strømmen verifies the purchase of RECS-certificates from unspecified, Danish wind power production facilities in the amount below equal to the purchaser's expected annual electricity consumption.

RECS-certificates are issued from renewable energy production facilities more than 2 years old. RECS-certificates are produced and controlled in accordance with international regulation of renewable energy - RECS (Renewable Energy Certificate System). Each year an independent accountant controls all purchases of RECS-certificates. For more information on RECS go to recs.org.

A handwritten signature in black ink, appearing to be "Ole Christian Vestergaard".

Ole Christian Vestergaard
Senior Vice President, SEAS-NVE
