

”A bathroom aid that extends independence”

## ROPOX TOILET LIFTER

### MAKING IT EASIER TO USE THE TOILET INDEPENDENTLY

The ROPOX Toilet Lifter is a bathroom aid that gently helps a user on and off the toilet. It is a small unit with high capacity and a discreet design that is easily customised to individual user needs.

It comes in a manual and an electrical version with height adjustment ranges of 22 and 25 cm respectively. The electric model is adjusted with a wireless hand control. The manual model is operated with a handle which can be demounted if desired.

Height-adjustable Toilet Support Arms can be mounted on the side of the unit. They provide plenty of space and good access for transfers. They can be installed or removed one at a time if user needs require it.

The smooth surface with rounded edges makes it easy to clean and helps to ensure a high level of hygiene.
