

”The washbasin that will
fit into any interior ”

ROPOX ADAPTLINE

A SMALL AND ELEGANT SOLUTION

AdaptLine is the obvious choice when you are looking to replace an old washbasin with a new one as it has a small wash unit and it can easily be adapted to existing water installations and drains.

The size also makes it fit into almost any environment which is an advantage when you furnish an interior where a washbasin is to be included.

You can adjust the height manually with a crank, and the design makes the unit easy to clean which allows you to keep a high level of hygiene.

AdaptLine is the flexible and elegant solution when you need a smaller washbasin which will fit most interiors.

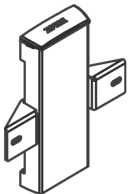

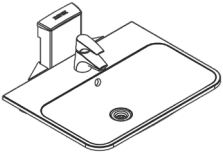

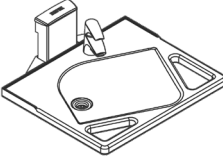

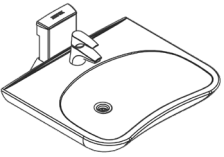

ROPOX ADAPTLINE
